What time is the clock showing?

9 o’clock.

Where will each hand be in half an hour?
Let’s see...

Half past 9.

Write and draw corresponding analogue and digital clock times.
Write and draw corresponding analogue and digital clock times.

Let’s count around the clock in 5 minute intervals…
Write and draw corresponding analogue and digital clock times.

On a piece of paper, write **the digital times** equivalent to these analogue clocks.
