

What our Parents  
and children want.

## How are we developing our Remote Learning

How are we responding  
to this.

We would like more  
live sessions with  
children.

I think that we need  
a maths live lesson.

Understand that we  
can't print things out to  
enable my child to do  
some of the work (eg  
Art)

More engagement with  
the teacher or more  
support to help with the  
learning.

Have games set and  
fun quizzes!

From next week we will recap  
and reconnect with the children  
every afternoon to refocus and  
set the afternoon learning.

For the next two weeks we have  
Maths Live lessons planned and the  
following week are Live Foundation  
lessons.

We have created video help  
guides to demonstrate how to  
edit documents on different  
devices to eliminate the printing.

Recap and Reconnect sessions every afternoon for  
each class.

Live story time has been planned into the timetable.

Class email address for Parents and children to  
have contact with teachers.

Staff are beginning to plan  
more practical and interactive  
learning opportunities to provide  
children with an enriched  
variety to our Remote Learning
